### Page 1 of 5 Important Information Prior to Travelling to Bosnia and Herzegovina Current DFAT Travel Advice

This advice is current for Mon, 5th November 2018.

*Exercise normal safety precautions in Bosnia and Herzegovina. Use common sense and look out for suspicious behaviour. An influx of asylum seekers into Europe has caused some localised disruption to cross-border road and train services in recent years. More disruptions are possible so have back-up plans. See [Local travel](#).*

*There is a threat of terrorist attack. Terrorist attacks have occurred in a number of European cities. Terrorists are likely to plan attacks in Bosnia and Herzegovina. Be alert in public places such as places of mass gathering. See [Safety and security](#). Lethal unmarked landmines and other unexploded ordnances are a hazard. See [Local travel](#).*

The above information is an edited excerpt of the Travel Advice Summary from the Department of Foreign Affairs and Trade. Travellers are encouraged to read the full advice, subscribe to updates to this information and register their presence in Bosnia at [www.smartraveller.gov.au](http://www.smartraveller.gov.au).

### Vaccinations and Health Precautions

The following information is intended as a guide only and in no way should it be used as a substitute for professional medical advice relative to a travellers individual needs and vaccination history. No guarantee is made as to its accuracy or thoroughness. For further information, please contact The Travel Doctor on 1300 658 844.

Vaccination against Hepatitis A is recommended for all travellers to Bosnia and Herzegovina. Vaccination against Hepatitis B, Typhoid and Rabies should also be considered.

All travellers should be up-to-date with their routine "background" vaccinations. These include vaccinations for Tetanus and Diphtheria (with a booster within the last 10 years), Whooping Cough (which is often combined with the Tetanus and Diphtheria vaccination), Polio (with a booster in adult life), Measles, Mumps and Rubella (two combination vaccinations through life), Chicken Pox and a recent annual Influenza vaccination. Tick-borne encephalitis is present throughout many areas in Europe (predominately in forested regions). Whilst no vaccine is available in Australia, travellers visiting endemic areas and planning outdoor activities between May and September should consider vaccination once in Europe.

Please consult a medical practitioner or contact The Travel Doctor for your specific risk to these preventable diseases and the appropriate avoidance measures. Australians travelling to Bosnia and Herzegovina should also ensure that they have adequate travel insurance to cover the length of their stay. For further information on insurance, please visit the Smartraveller website listed above.

### Page 4 of 5 Bosnian Currency Information and Cheat Sheet Exchange Rate with Bosnia and Herzegovina

#### Interbank Rate

1 Australian Dollar (AUD) = 1.24 Bosnian Marks  
 1 Bosnian Mark (BAM) = 0.81 Australian Dollars

#### With 4% Margin

1 Australian Dollar (AUD) will buy 1.19 Bosnian Marks  
 1 Bosnian Mark (BAM) will cost 0.84 Australian Dollars

The Bosnian Mark is pegged to the Euro, with a rate of 1.95583 marks to 1 Euro. Thus many transactions in Bosnia and Herzegovina use the euro instead of the mark (generally at a rate of 2 marks to 1 euro).

All rates were correct at a point in time on Monday, 05 Nov 2018. The "Interbank Rate" does not take into account any exchange fees, while the "With 4% Margin" adds 4% to the exchange rate to simulate a typical margin that would be paid when exchanging these currencies. These currency rates have been rounded and should not be used when calculating transactions of large value.
